

## WhatsApp - Locked Chats

Did you know that you can hide conversations and lock them away in WhatsApp? This was a feature introduced in May 2023 and was easy to spot (if you knew how), but WhatsApp have updated the feature which makes it much more difficult to find.

In the original update you had to swipe down in the 'Chats' window to see locked chats, then input a code, fingerprint or Face ID to unlock (see [THIS](#) 1 minute video on YouTube).

However, this meant that other people (parents, teachers, partners) would be able to see that you have got locked chats, even if you can't see the content. WhatsApp have just updated this (being rolled out worldwide from the beginning of December) and locked chats can now only be viewed by entering a secret code into the search bar, meaning that you will not be able to tell if there are any locked chats without knowing the code which WhatsApp briefly explains [HERE](#).
